

Alternative Renewable Energy Options

SUN ENERGY In association with CMC

Solar, wind and backup generators and boiler systems

FEATURING: Kohler • Xantrex • Outback • Acheval • Tarm Boilers

Boiler Heating Systems

MULTI-FUEL BOILERS
operate at over
80% efficiency on wood,
85-87% on oil,
and 83-84% on gas.

WOOD GASIFICATION BOILERS
burn at over 80%
overall boiler efficiency.

MULTI-HEAT BOILERS
burn wood pellets or corn
at 88-91% efficiency.

Solar Electricity

- Full service – design, parts and installation
- On-grid or off-grid
- Environmentally friendly
- Completely independent – Perfect for remote sites
- Exceptional reliability

Tel 320-679-0877

SUN ENERGY

Solar Heating

- Short 3-year payback
- Strong and durable – heavy gauge aluminum construction
- All-weather
- Attractive low-profile tapered design
- Easily serviced
- High performance absorption featuring 360° wrap-around fin-to-tube bond

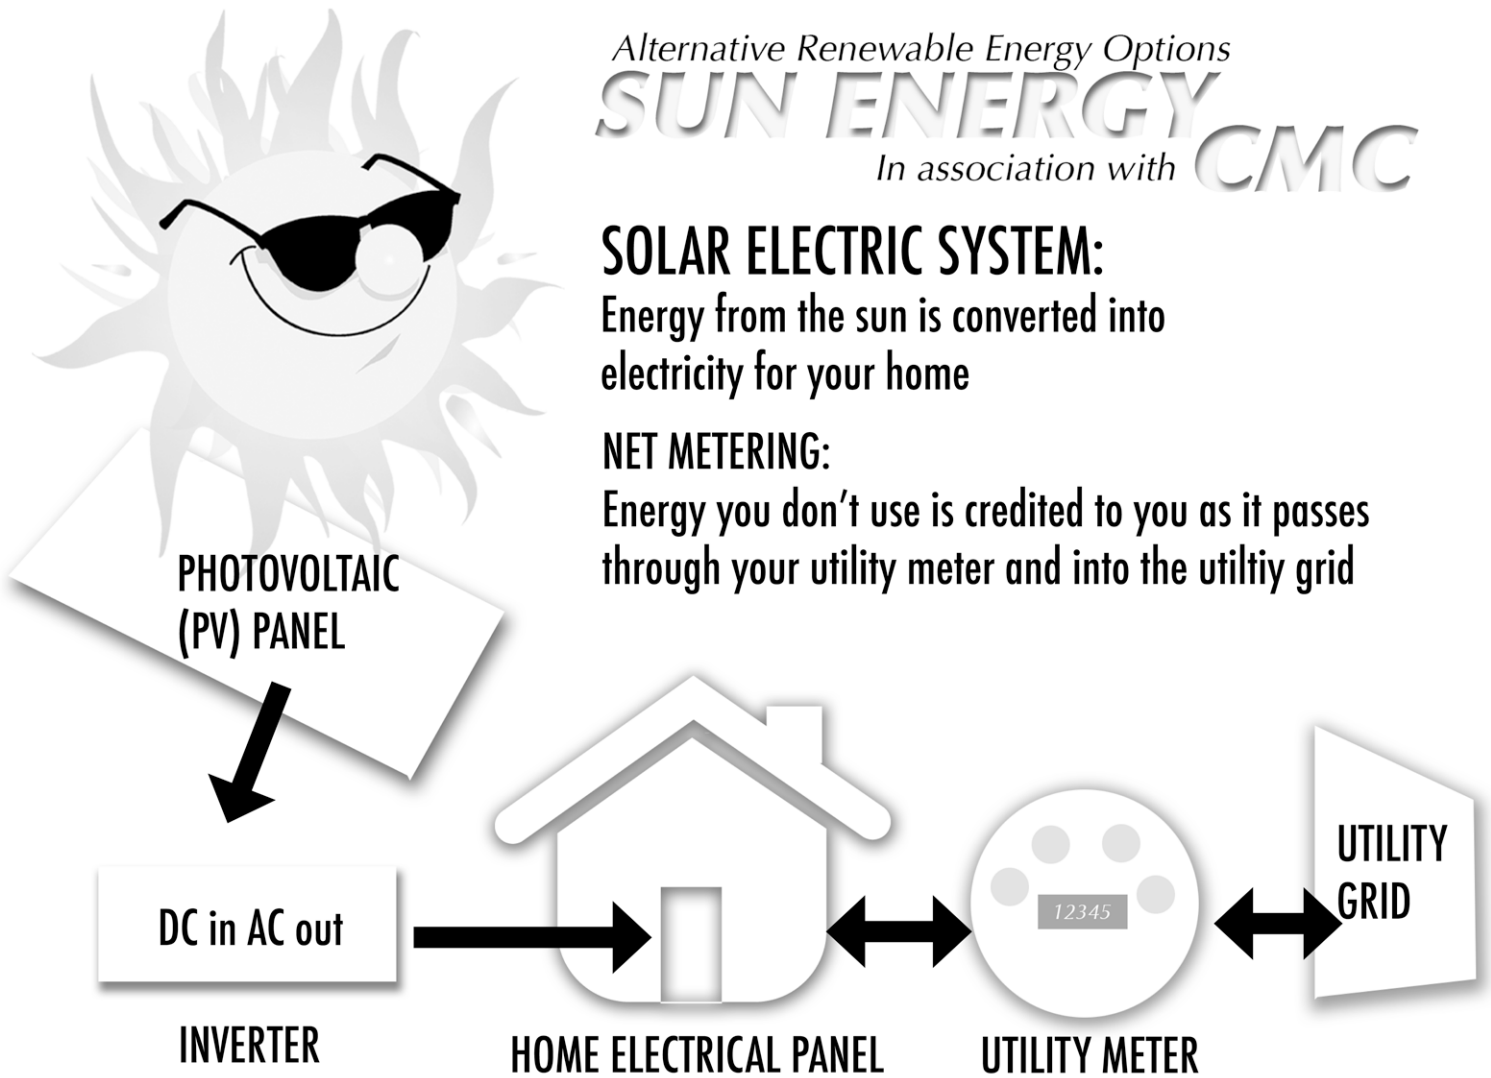

SOLAR ELECTRIC SYSTEM:

Energy from the sun is converted into electricity for your home

NET METERING:

Energy you don't use is credited to you as it passes through your utility meter and into the utility grid

SOLAR WATER HEATING SYSTEM:

Energy from the sun pre-heats water so your water heater does less work.
